Chia-Hui Lien's Visual Design Creative Solo Exhibition

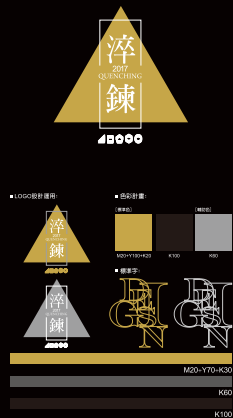

Through nurturing and cultivating by time for 40 years, reaching the age free of confusion, the 22-year design was materialized just like "many a little makes a mickle". The work reflects the hidden inner rumination and insinuation, with warmth, emotions, sense, and sensibility. The designer's inner pursuit for aesthetics was sculptured through burning fire and the imprints of the years were etched by time.

The overall image visual design of the solo exhibition is in black and white to symbolize reservedness and steadiness, and the golden triangle signifies the accumulation of time and energy through the creative process, transmuting substances into gold, a metaphorical portrayal of the creator's journey inward.

-
- March 2017 to complete the design.
 - 2017.3.17–3.28 Published works at the Kaohsiung Cultural Center in Taiwan.
