Adam seeks paradise is the expression of a longing for perfection and happiness.
Behind it lies the melancholy of lost love and shattered happiness.

The drawing "Dream @ dark face" symbolizes everything threatening, what happens politically, surrounds us, dominates the world and seeks to change. The face is evil. He lacks everything that makes a noble and gentle character.

At "Dream @ back" a man stands on the beach and looks into the vastness of the sea and the sky. His thoughts are free.

Dream @ Beauty wants to show how different ideas of beauty can be.

Dream @ Head Birth makes it clear how much everything depends on our thoughts.

The praying mantis eats her partner after the act of love when he does not succeed in separating from her at lightning speed.

A couple usually performs together. Horns have no choice.

The lonely tango dancer has lost his partner. He could not hold her. Without her, he is no longer a tango dancer.

Dream @ Mobile is the balance of a self-contained being.

Dream @ Metamorphosis shows a sweeping hand drawing.
